

Present:

Asad Alnajjar
Anne Bierling
Amy Dobry
Sue Hammarlund
Becky Leveque
Jo-Ann Spitzer
Wendy Moore
Elaine Woo

Agenda Completed:

1. Guest speaker Anne Bierling is one of the co-leaders of the safety and traffic effort of PATH at Castlebay Elementary. She described the current effort to direct traffic.
 - a. They use 4 volunteers a day from the same classroom. Each classroom takes a week. They originally made safety suggestions to parents, "Please use the crosswalk". Now they make direct demands, "You must use the crosswalk".
 - b. They have applied for a video ticketing program.
 - c. Asad works for the City and said if the school makes a request, his department reviews what improvements might be made, such as a crosswalk with flashing lights.
2. We discussed where and how we would procure the purchases approved by the Board.
3. We discussed Jo-Ann's letters about the agreement with S&S to build a new school. The agreement with S&S says that LAUSD must build the school within 3 years after 60% of the houses are sold. 60% of what? That number is not know. And has probably changed over the years. S&S currently estimates they are 25% built. It is possible however, that we don't have to wait until 60% are sold, we could get a school sooner.
4. We discussed promotions to increase attendance at the Roy Romer Towne Hall. Including a flyer with two children to say, "Mr. Romer, Where's my school?" Wendy will work on the flyer design. Becky will work on getting the flyers made.
