

Land Use Committee Meeting

Tuesday, November 28, 2006

6:30 pm to 8:00 pm
RE/MAX Olson and Associates
Upstairs Meeting Room
11141 Tampa Avenue
Porter Ranch, CA 91326

Cell Phone Service & Cell Tower Plans for Porter Ranch

For many years, the Porter Ranch area has experienced considerable new development and more is expected in the future. Since there are many hills and valleys within the PRNC boundaries, cell phone reception is not consistent throughout the area and even unavailable in some places.

Cell phone towers are currently scattered within the PRNC boundaries but more will be needed to improve service for existing locations and to accommodate new residential and commercial projects. As a result, the PRNC Board of Directors asked the Land Use Committee to undertake a study of cell phone service options that may be available within our boundaries.

The Land Use Committee needs input from Porter Ranch Stakeholders about this important issue and will hold its next meetings on this subject. Cingular Wireless has agreed to meet with the committee on Tuesday, November 28, 2006 to discuss cell tower and service options for Porter Ranch. The committee plans to meet with other carriers at future meetings.

Please plan to attend this important meeting and share your thoughts.
